Introducing the Sprint CapTel® Family

Only CapTel® Captioned Telephones give users the choice of which telephone device is most comfortable for their needs. Whether users prefer a traditional-style telephone or a touch-screen interface, CapTel has the answer. If users require an extra large screen for easy reading or want the freedom and convenience of a mobile device – there is a CapTel model that fits the bill.

Because it doesn't really matter which phone you use, what matters is that you can understand every word of the conversation. CapTel gives you the confidence to enjoy calls again, knowing that the captions will help you to catch every word.

CapTel products and services are also available for Federal Employees. Go to **federalrelay.us/captel** for more information.

Spanish Captioning is available for all Sprint CapTel products and services.

Sprint CapTel 2400i

A **tablet-style telephone** with a large, touch-screen display and helpful menu graphics. Ideal for people who prefer a contemporary telephone design.

Also includes touch-key dialing pad – letting users dial with traditional number buttons if they prefer.
